

SENATOR MARVEL: Senator Mills, do you want to respond?

SENATOR MILLS: Yes, Senator Keyes, three days, \$10 for a non-resident.

SENATOR KEYES: Now, a non-resident could come in and say, I want a three-day permit and I want one May 1, I want the other one May 8, and I want the other one May 15. There will be three weekends that he could come in and fish in Nebraska for one day each, for three weeks. Now is this what we want to do? I've read all through it and I can't find anything that says they have to be consecutive days.

SENATOR MILLS: I think that would be promulgated by rules and regulations. It certainly is not meant to be that way, Senator Keyes. It has to be consecutive days.

SENATOR KEYES: As you are amending the statute in here, I could come in and get a three-week permit to hunt or fish on Sunday, if I wanted to. That's about the only time that native Nebraskans have to fish, is Sunday. Here we are getting somebody outstate the chance to fish for \$3 a day.

SENATOR MARVEL: Senator Koch. Did you have another comment?

SENATOR KOCH: Mr. Speaker, I rise to support Senator Mills and the efforts of this proposed legislation. It's unfortunate that as many times as we try to solve one issue, suddenly we try to solve the problem of the world as it relates to the problems of this state. There will be ample time to do this in another bill that will be coming forth. To Senator Keyes, I would merely say to you that when you buy a three-day fishing permit, it's on consecutive days. You don't use those three days when you wish to use them. It's primarily for non-residents who come into the state and use Lake McConaughy as an example. They're going to be here for a long weekend. They buy a three-day fishing permit, that's it. They can't come in and use it on Sunday of one month, Sunday of another month, because we don't have the policing power for that to determine how many days you use it. It's a three-day permit and it's dated and when those three days are finished, that permit is finished also.

SENATOR MARVEL: There are no other lights on. Senator Mills, do you wish to close?

SENATOR MILLS: Very briefly, Mr. President. I think that Senator Koch has answered a pertinent question to Senator Keyes. Relating to the question of Senator Lamb, I have kind of quickly divided it out. It would be a \$7.50 fee for a resident to fish is about 2¢ a day. If you want to offer them a three-day permit, about 6¢. They can't even afford to print a license for that. Maybe perhaps he would want to come in at Select File and bring in something that would relate to a different time. I think both of those that Senator Koch has stated could be addressed at some other time. It most properly should be done. I would ask you to advance LB 129 to E & R Initial.

SENATOR MARVEL: The motion is to advance LB 129 to E & R Review. All those in favor vote aye, those opposed vote no.

CLERK: Senator Marvel voting aye.

SENATOR MARVEL: Clerk record the vote.
